A journey from tiles to lifestyles - measured in square feet

H&R Johnson (India) is a division of Prism Johnson Limited, one of India's foremost Integrated Building Materials conglomerates.

PRISM JOHNSON LIMITED

Established in 1958, Johnson is one of the oldest and trusted brands in the country. Built on the strong and unswerving foundations of quality and innovation, this trust has only grown in these decades gone by; and continues to grow. Starting with tiles, the brand soon diversified into offering lifestyle solutions in the realms of Engineered Marble & Quartz and Bath Solutions. There by becoming India's most Integrated Lifestyle Solutions brand. Every product that comes bearing the H&R Johnson insignia is a symbol of the same quality and innovation focused on adding value to the lives of our consumers.

Pioneering Innovations, A Way of Life

At H&R Johnson the term innovation is at the heart of everything we do. That's why it is backed by credible research. Every product attempts to fill in a void left by conventional offerings in the category, in an innovative manner. It's this value we place on cutting-edge innovation that makes us strive for more and eventually deliver more. A quality and a way of working that has redefine consumer lifestyles and expectations.

- Anti-skid & Water-repellent Tiles for Bathrooms
- Rectified Wall Tiles
- Johnson Marbonite - Vitrified Wall and Floor Tiles
- Joint Free Tiles
- Large Format Slabs
- Digitally Printed Wall & Floor Tiles
- Germ Free Tiles & Sanitaryware
- Exterior & Industrial Flooring Solutions

India's Most Integrated Tile Manufacturing Company

Self-owned Felspar Mines

Making Punches & Dies

Manufacturing of Soluble Salts and Inks

Being India's most trusted tiling brand requires that trust to be maintained in every stage of developing each and every product that bears the name of the brand. That's why at H&R Johnson, our Felspar Mines are Self-owned, the soluble salts and inks are manufactured in-house, and even the dies and punches are made in-house. All, so that every step in the process comes with the same quality and assurance, that you expect from us.

Manufacturing Excellence

Johnson has the most modern manufacturing units across strategic locations in India. Our manufacturing facilities employ the best technology from world leaders in tile manufacturing equipment. All our plants are ISO compliant with both 9001 and 14001 certifications as well as OHSAS 18001 certification.

Certifications

Johnson is India's largest tile manufacturer. Its commitment to quality, service and innovation is backed by certification from the world's leading accreditation bodies.

ISO 9001: 2015

For implementing a Quality Management System for the Manufacture and Supply of Ceramic Tiles.

ISO 45001: 2018

For implementing an Occupational Health & Safety Management System for the Manufacturing of Ceramic Tiles.

ISO 14001: 2015

For implementing an Environmental Management system for the Manufacturing of Ceramic Tiles

Certificate of Merit for Energy Conservation, Bureau of Energy Efficiency, Ministry of Power A Recognition for the efficient use of energy and its conservation.

Plant has received Safety award by National Safety Council

GreenPro is a product certification given by the Confederation of Indian Industry (CII) which signifies environmentally conscious life cycle of the production; certification for eco-friendly products that helps customers make an informed choice towards sustainable products.

Griha

Griha council is a joint initiative of Ministry of New and Renewable Energy, GOI and The Energy and Resources Institute of implement Griha. India's national rating system for sustainable habitats

Johnson Tile Fixing Instructions

1. Plaster the surface of the floor where the tiles will be laid with smooth finish and complete the plastering and curing at least two weeks prior to laying.
2. Before fixing Porselano tiles lay them out in the desired pattern and make sure that they give an acceptable blend of shade, colour and design. Please note that certain amount of shade and size variation is inherent in the manufacture of vitrified ceramic tiles. Certain products will have intentional shade or colour variation to get the natural and elegant look, which is an integral element of the design resembling naturally created veins or shaded effect.
3. The company bears no responsibility towards the tiles exposed to any outside process like transfers, printing, firing etc.
4. For fixing Porselano, we recommend using an appropriate product from the range of tile fixing adhesives from the ARDEX ENDURA (INDIA) PVT. LTD. Please follow the adhesive manufacturer's recommendations and instructions for best results.
5. For fixing Porselano tiles on the floor, using sand and cement, follow the instructions given below:
 - a) Use cement and sand mortar in the ratio of 1:4. Add some water to create a consistent paste.
 - b) Once the mixing has been completed do not add any further water and use the same within one hour.
 - c) Apply a 20-30 mm layer of bedding material over an area of 1 square meter at a time on the surface of the area. Apply a fine slurry to the back of the tile to ensure proper and full bedding. Press gently for even adherence at the back of the tile. **DO NOT USE AN IRON HAMMER OR SOME HEAVY MATERIAL TO PRESSTHE TILE.**
6. For fixing Porselano tiles on Wall / Dado, we recommend using an appropriate product from the range of tile fixing adhesives from the ARDEX ENDURA (INDIA) PVT. LTD. with proper troweling method for 100 per cent coverage behind the tiles and for peerless bonding. Please follow the adhesive manufacturer's recommendations and instructions for best results. We do not recommend the use of sand and cement for fixing on Dado.
7. Mark and lay out the tiles from the center of the area to be laid so that cut tiles, if any, will be on the outer edges towards the walls.
8. The work size which we try to maintain for better technical performance is 60 cm x 60 cm on average. For large format tiles we do not recommend tiles to be laid without a gap. Plastic tile spacers can be used at each tile corner to maintain even grout lines between the tiles. It is advisable to maintain a gap of 2 mm to 6 mm between every tile to allow for possible expansion as per ISO tolerance norms.
9. Complete the laying process by pressing the cut Porselano tiles firmly into place along the walls/floors.
10. Allow 3-4 days for bed curing. After this period fill the joints with cementitious or epoxy grouts from ARDEX ENDURA (INDIA) PVT. LTD. Use of grout sealant is recommended for keeping the grout free of dust.
11. Fifteen minutes after finishing the grouting process, wipe off excess grout with a damp sponge and polish the tiles with a soft and dry cloth for a clean surface. The tiles can also be cleaned with a mild acid (However, Hydrofluoric acid and its derivatives should not be used). You can also use tile & stone cleaners from ARDEX ENDURA (INDIA) PVT. LTD.
12. Please note that the company does not accept any liability in case of problems arising out of non-adherence to these fixing instructions.
13. **THE COMPANY WILL BEAR NO RESPONSIBILITY AFTER THE TILES ARE FIXED.**
14. Kindly look for an arrow (➔) on the back of the tile and follow the laying pattern as shown in Pic-1:-

NOTHING IN THESE INSTRUCTION IS A SUBSTITUTE FOR GOOD WORKMANSHIP AND SUPERVISION
